

The European Resilience House. Turning alignment into execution.

Europe spends €400B on defence, invests less than 20% into innovation, and remains slowed by fragmentation and lack of alignment between capital, industry, and demand.

Solution

The Resilience House aligns capital, capability, and demand – in a trusted, curated circle.

What it is

A high-trust execution layer for Europe's defence ecosystem.
Not a network. Not a conference.

How it works

- **Munich Security Breakfast** – within the framework of the MSC
- **Executive Dinners** – 25 leaders, closed door
- **30-30 Briefings** – fast, relevant intelligence
- **Curated Connectivity** – targeted introductions
- **Resilience Briefing** – early signals
- **Resilience House Munich** – physical hub (2027)

The Value

You gain access to key ministries and armed forces, the operational military level, 120+ curated defence & dual-use startups, and a European, Israeli, Middle Eastern, Japanese, and transatlantic network.

Our social Proof

Build by BASED. Commissioned as de:hub by the German Federal Ministry for Economic Affairs and trusted across Europe, USA, Israel, Middle East, Japan.

Your Membership
